

## **- City to Begin Code Enforcement Program -**

March 18, 2008

In order to improve community aesthetics and maintain & increase property values, the City of Mitchellville is switching from a complaint based system to a system of active enforcement. Periodically, City staff will give notice to any violations of city nuisance, zoning or other ordinances. The first notice will be just a warning. The second will be a citation with fine, and finally the third is magistrate court action with possible additional fines. The program will begin April 14, 2008 and carry forward in this manner.

We encourage all residents to maintain properties and help Mitchellville be the best it can be. If you have any questions, please contact City Administrator Jeff Horne at 967-2935.
